

Postage Stamp Pear

Trace the pear shape onto fabric three times and cut out. Stitch the three pieces together by starting at the top of the pear, sewing halfway down one side, continuing down the second side, and finishing along the third side, stitching between the marked openings. Turn right side out through the opening at the bottom.

Use the triangle, rectangle, and leaf templates to cut pieces from felted wool or wool felt. Hand-stitch the triangle to close the bottom, roll and stitch the rectangle to form the stem, and tack the leaves in place at the top.
